Hansoft Setup & Training

SETUP AND ROLLOUT

Duration: Full Day

Hit the ground running with Hansoft. We'll get to know your team and environment to understand your exact needs. Then configure Hansoft so you can do what you do best.

THE FUNDAMENTALS

For: Beginners

Duration: Half Day

Learn the Hansoft basics with a walkthrough covering core features. To maximize time and relevancy, we often divide this training by user role: team members (1 hour), project managers and Scrum Masters (1.5 hours), product owners (1.5 hours).

COURSE AGENDA

- Planning View
- Product Backlogs
- Quality Assurance
- Reports
- Dashboards

TRAINING FOR TRAINERS

For: Power Users (15 Attendees Max.)

Duration: Two Days

Make sure you can scale up with Hansoft by giving up to 15 team members the skills to train other users. Attendees will gain a deep understanding of Hansoft and its underlying principles, as well as learn hands-on tips and tricks with common use cases. They'll leave with a formal Hansoft Trainer Certification document and the ability to train others confidently.

COURSE AGENDA

- Scrum Overview
- Administration
- Product Backlogs
- Sprints
- Quality Assurance
- Gantt Features
- Reports
- Dashboards
- Tips & Tricks
